JAMIL YAKASAI

FOUNDER & AI SYSTEMS BUILDER | Applied AI Product Systems | Automation & Data Systems

San Francisco, CA | 415-918-1995 | mrjamilyakasai@gmail.com | linkedin.com/in/sanbosay | novalyte.io

PROFESSIONAL SUMMARY

Founder & AI Systems Builder who designs and ships applied-AI products, internal tools, operational platforms, and automation workflows from concept through deployment. Conceived, architected, and deployed Novalyte AI, a multi-sided healthtech ecosystem spanning patient discovery, clinic workflows, and a centralized Revenue Command Center. Combines enterprise sales-operations experience at Zendesk with AI-native product development, workflow design, CRM infrastructure, SQL-supported data operations, API integrations, and executive dashboards.

CORE SKILLS

Applied AI & Product Systems: LLM workflows, prompt engineering, structured outputs/JSON schemas, tool calling, AI-assisted product development, workflow architecture, user journeys, UX/UI, admin consoles, AI-enabled operational tools

Modern Development, Data & Integrations: Python, JavaScript/TypeScript, SQL, REST APIs, webhooks, Git/GitHub, Supabase/Postgres, BigQuery, data cleaning, deduplication, matching, validation, dashboards, geospatial data visualization

CRM, GTM & Revenue Infrastructure: Salesforce, HubSpot, lifecycle workflows, lead capture and routing, Clay/Apollo enrichment workflows, CRM hygiene, pipeline telemetry, outbound operations, executive reporting

PROFESSIONAL EXPERIENCE

NOVALYTE AI — San Francisco, CA | 2025 - Present

Founder & AI Systems Builder

- Conceived, architected, and deployed Novalyte AI end-to-end as a multi-sided healthtech ecosystem connecting patient demand, specialty clinics, healthcare professionals, and service vendors.
- Designed and shipped core operational surfaces: public patient discovery and intake journeys, clinic onboarding tools, and a centralized internal Revenue Command Center.
- Built the operator Revenue Command Center as a unified control plane uniting clinic acquisition, demand intelligence, workforce exchange, revenue telemetry, and platform administration.
- Engineered AI-enabled GTM and operational automation workflows covering lead capture, waterfall enrichment (Clay, Apollo), qualification scoring, routing logic, and CRM writeback.
- Leveraged AI-assisted development tools to accelerate delivery while owning system requirements, architecture, SQL data hygiene (cleaning, deduplication, matching), and production deployment.

ZENDESK — San Francisco, CA | May 2023 - Feb 2025

Sales Operations Analyst

- Supported North American enterprise sales teams through Salesforce workflow optimization, pipeline management, forecasting support, and operational reporting.
- Built executive dashboards that converted sales activity and pipeline data into conversion, forecasting, and performance insights for revenue leadership.
- Led CRM data-hygiene, validation, and process-improvement initiatives that improved pipeline visibility and enabled reliable sales-performance analysis.

SELECTED PROJECTS

Geospatialabs (geospatialabs.com) — Geospatial Decision-Support Prototype *(Founder / Independent Prototype)*

- Conceived, built, and deployed an interactive decision-support prototype mapping regional healthcare clinic capacity and local demand signals.
- Engineered custom map visualizations, data normalization pipelines, and query interfaces in JavaScript, Python, and SQL.

ADDITIONAL EXPERIENCE: SolarCity — Inside Sales Representative | Oakland, CA | Mar 2021 - Feb 2023

EDUCATION

Georgia State University — Bachelor of Arts, Psychology

Maestro AI — Applied Science Program in Business Administration, Entrepreneurship & Innovation (commenced 2026)
