JAMIL YAKASAI

AI GTM SYSTEMS ENGINEER | AI Automation, RevOps Infrastructure & Revenue Intelligence

San Francisco, CA • 415-918-1995 • mrjamilyakasai@gmail.com • linkedin.com/in/sanbosay

PROFESSIONAL SUMMARY

AI GTM Systems Engineer and technical founder with 5+ years architecting autonomous revenue systems, lead-routing workflows, and CRM data engines. Combines Python, SQL, TypeScript, Clay, Salesforce, HubSpot, Supabase, and BigQuery to build end-to-end AI agents, multi-provider waterfall enrichment, and automated speed-to-lead pipelines that scale revenue execution across modern GTM teams.

CORE COMPETENCIES

AI GTM & WORKFLOW AGENTS
Autonomous GTM agents, LLM lead scoring, MCP services, prompt/system design, Make, Zapier, n8n, automated outbound triggers

ENRICHMENT & SIGNAL PIPELINES
Clay, Apollo, Firecrawl, Exa AI, multi-provider waterfall enrichment, intent signal extraction, CRM writeback, ICP modeling

CRM ARCHITECTURE & REVOPS
Salesforce, HubSpot, custom objects & flows, lifecycle design, lead routing, pipeline hygiene, speed-to-lead instrumentation

DATA TELEMETRY & INTEGRATIONS
Python, SQL, REST APIs, webhooks, Supabase/Postgres, BigQuery, revenue dashboards, event bus synchronization

PROFESSIONAL EXPERIENCE

Novalyte AI
Jan 2024 – Present

Technical Founder - AI GTM Systems & Revenue Operations | San Francisco, CA

Architecting an AI-native GTM operating system and automated lead engine connecting prospect discovery, signal ingestion, and CRM revenue pipelines.

- **AI Revenue Architecture:** Designed and deployed autonomous Go-to-Market workflows that eliminate manual CRM entry; wrote backend services using Python, Pydantic, and LLM structured data validation for real-time lead qualification.
- **GTM & Waterfall Enrichment:** Built an end-to-end account intelligence engine using Firecrawl, Exa AI, and Clay/Apollo multi-provider enrichment, maintaining 99%+ CRM completeness and automated ICP scoring.
- **Cloud Run MCP Tooling:** Developed Cloud Run-ready MCP agent tools for automated contact enrichment, buying intent detection, and outbound sequence triggers.
- **Revenue Telemetry & Scale:** Centralized pipeline data across Supabase, BigQuery, and Salesforce/HubSpot webhooks, powering real-time executive forecasting and speed-to-lead tracking for 500+ target enterprise accounts.

Zendesk | Enterprise GTM Platforms
May 2023 – Feb 2025

Sales Operations & GTM Systems Analyst | San Francisco, CA

Supported North American enterprise sales teams with a focus on cross-functional alignment, unified revenue systems, and pipeline discipline.

- **Salesforce Architecture:** Engineered and maintained complex Salesforce workflows, custom fields, and validation rules, translating raw pipeline activity into predictive forecasting models for revenue leadership.
- **GTM Alignment & Handoffs:** Partnered with Sales, Marketing, and Operations to eliminate lead handoff friction, automate SLA tracking, and enforce unified CRM data standards across enterprise accounts.
- **Pipeline Hygiene & Risk:** Cleaned legacy pipeline data and built automated deal-risk dashboards in Salesforce and SQL, enabling revenue leaders to identify stalled deals and accelerate deal velocity.

SolarCity
Mar 2021 – Feb 2023

Inside Sales Representative | Oakland, CA

- Managed customer discovery, technical qualification, and CRM pipeline progression.

EDUCATION

Georgia State University | Bachelor of Arts, Psychology — Graduated
