JAMIL YAKASAI

FOUNDER & AI SYSTEMS BUILDER | Applied AI, Product Systems, Automation & GTM Infrastructure

San Francisco, CA | 415-918-1995 | mrjamilyakasai@gmail.com | linkedin.com/in/sanbosay | novalyte.io

PROFESSIONAL SUMMARY

Founder and AI systems builder who designs and ships end-to-end products, operational platforms, and automation workflows. Built Novalyte AI, a multi-sided healthtech ecosystem connecting patient demand, clinics, healthcare professionals, and service providers-spanning public user experiences, clinic workflows, and an internal Revenue Command Center. Experienced in applied AI, product design, full-stack AI-assisted development, CRM and revenue systems, lead routing, data enrichment, dashboards, APIs, workflow automation, and geospatial demand intelligence. Strong at turning ambiguous business problems into structured product requirements, deployable workflows, and usable software.

CORE SKILLS

Applied AI & Product Systems: LLM workflows, MCP agent services, structured JSON schemas, full-stack AI development, user journeys, admin consoles

CRM & Revenue Infrastructure: Salesforce, HubSpot, lifecycle workflows, lead routing, Clay & Apollo enrichment waterfalls, CRM hygiene, outbound

Data, APIs & Automation: Python, JavaScript/TypeScript, SQL, REST APIs, webhooks, BigQuery, Supabase/Postgres, geospatial intelligence, dashboards

PROFESSIONAL EXPERIENCE

NOVALYTE AI

San Francisco, CA | 2025 - Present

Founder & AI Systems Builder

- Defined platform strategy, user roles, information architecture, product flows, brand, UX/UI, operational logic, and deployment roadmap across patient, clinic, workforce, marketplace, and operator experiences.
- Designed and built patient acquisition and structured intake journeys, clinic discovery workflows, marketplace interactions, and healthcare workforce concepts.
- Created a centralized admin Revenue Command Center covering clinic acquisition, sales and revenue, patient operations, demand intelligence, campaign management, workforce, marketplace operations, automation, AI workflows, analytics, and system administration.
- Designed AI-enabled GTM and operational workflows including lead capture, enrichment, qualification, routing, CRM process design, outbound concepts, reporting, and exception handling.
- Used AI-native development tools to accelerate implementation while owning system requirements, architecture, product logic, testing, debugging, iteration, and production deployment.
- Built the platform around real stakeholder needs across patients, clinics, healthcare operators, professionals, and vendors.

ZENDESK

San Francisco, CA | May 2023 - Feb 2025

Sales Operations Analyst

- Supported North American enterprise sales teams through Salesforce workflow optimization, pipeline management, forecasting support, and operational reporting.
- Built executive dashboards that converted sales activity and pipeline data into conversion, forecasting, and performance insights for revenue leadership.
- Partnered with Sales, Marketing, and Operations teams to improve lead handoffs, routing processes, CRM data standards, and cross-functional execution.
- Led CRM data-cleanup and process-improvement work that improved pipeline visibility and enabled more reliable sales-performance analysis.

ADDITIONAL EXPERIENCE: SolarCity — Inside Sales Representative | Oakland, CA | Mar 2021 - Feb 2023
